REWARD.

The first and second volumes of the *Warren Appeal* are missing from our office. They are the only bound volumes of this paper now extant. We will give the above reward for their discovery and delivery at our office, or we will give ten dollars for either of the volumes.

All persons having books belonging to the *America Library* are requested to return them, and all persons are requested not to ask for the books of hereafter, as no such request can be complied with.

All persons are requested not to purchase class papers from our regular carriers, as they are not authorized to sell them. An observance of this request will greatly oblige the publishers.

The Adams Express Company have placed the latest Eastern papers upon their desks.

The new State Capitol at South Carolina is to be built of pure marble, and will cost \$2,000,000.

The list of uncalled for letters at the Memphis Post Office appears in the *Appeal* this morning, the circulation of our paper entitling it to the advertisement.

Installments in the Building and Loan Association are due and payable-to-day. The funds will be sold to-night at the usual hour and place.

We are again under obligations to Messrs Davis, Williams & Co., the attending Agents, for dates from now to October.

The obliging crew of the fine steamer *Southerner* will except our thanks for their kind attention in furnishing us with latest dates from St. Louis.

The religious revival going on at Assembly Chapel, in this city, is progressing with unabated zeal. There have been about twelve fifteen converts since it commenced.

The Rev. Dr. Rivers, President of Florence Wesleyan University, will preach at Wesley Chapel, (tomorrow morning, at 10 o'clock), and at Abundant Chapel at night.

We had the pleasure yesterday of meeting Mr. J. W. Gamble, of the Caulder House, Charleston. Some of our citizens enjoyed great hospitality during the Railroad jubilee at that place.

Senator DOUGLASS has made \$30,000 by his gift of land to a Baptist Union at Columbia, and is continuing his course of increased giving by the location of the University. Casting his bread upon the water, he is reported failing, and we are all the up-
per river.

We have been requested by some of our citizens to call the attention of the city authorities to the nuisance of old barrels, dirt and filth which have been left on the corner of Main and Madison streets. The removal will certainly contribute to the appearance of that locality.

New COTTON.—We received yesterday, says the *Grensbrough* (L.) of the 25th, a freight car containing 1,000 lbs. of cotton, a box of cotton of this year's growth, picked in his field during the week. This box is fully developed and open, and was held while in the same state of forwardness he would be able to procure picking in about ten or fourteen days. We think St. Helena is ahead.

LAW SENDER.—As far as we can learn, the law for executing dogs without a "trial by jury" has been suspended. It is well known that he has the sanction of our citizens. A better enactment would be to make it more strictly provided in the *Bullock's*, which if it had been adopted, would not have given the "effusion of blood," for which the present law was designed.

PACIFICAN, OR THE INDIAN MAD.—By an advertisement in another column, it was shown that Prof. Faxon, of the Star Gallery, will present to two hundred of his patrons a splendid full length portrait of "Pacifican" and "The Indian Mad." The number of pictures taken of this subject is very great, and the presence of the precious metal was nearly a general rule. The demand for these pictures, which were taken in the most artistic manner, has still kept them in great demand.

SALE OF SAM'L BARCOCK.—This is the shortest, best and CHEAPEST time from Memphis to New Orleans—Orleans, July 27, 1857.

Mrs. HENRY, Paris, La.—Gentlemen.—I have great pleasure in saying to you that I made one of BERNHARD'S HOLLAND BITTERS a remedy for Headache and Debility who has also used it with great benefit.

Mr. A. N. STEPHENS of Pittsburgh, also reports that it has experienced much relief from his headache.

STRENGTH AND HEALTH RESTORED.

Mr. John Davison, living ten miles above Pittsburgh, in the Pennsylvania Coal, says: "When I commenced taking BERNHARD'S HOLLAND BITTERS, I could hardly walk. Now I enjoy excellent health."

PHILADELPHIA.—A man, 21 years of age, was found hanging in a tree in the Park, Philadelphia, on Saturday evening, July 27, 1857.
